

Respuesta a las 3 principales preguntas

1. Breve carta a la familia

Dear Family,

My name is Alberto . I'm twenty two years old and I'm Spanish. I live in the south-east of Spain in the region of Murcia. I'm writing with regard of being taken into account for future vacancies as an au pair. Throughout the following lines, I would like to give you some information about myself.

2. **Sobre mí** (Cómo ves yo lo hice en dos partes básicamente uniendo la carta y el sobre mí) Tu puedes hacerlo como prefieras.

Regarding my educational training, *I am a graduate student in Sport Sciences and Physical Activity Degree at the University of Murcia (Spain). I finished my degree last June 2013 and I'm currently studying a Master in Teachers from Compulsory Secondary Education and Bachiller, Vocational Training and Language Teaching, physical education's specialty, in the University of Granada. The reason of studying this MA is because I would like to work as PE teacher in the future.*

Regarding my personality, *I consider myself as a responsible, mature and organized person. I am polite, sensible, sincere, humble and very social. Moreover, my friends always tell me that I'm very talkative, extroverted and funny as well as self-confident and a good listener. In my free time, I love reading and practicing sports. Among all sports I practice, football, running, swimming, mountain bike, and paddle's sports like tennis, ping-pong, paddle and open-air sports are my favorite ones. Furthermore, I am a bit home-loving and I really find meeting with my friends, my grandmother and my family one of the most enjoyable moments.*

In relation with my professional experience, *it's not long but intense. I have a long experience as babysitter since I am a scout monitor since 2011 and I am used to work, teach and look after children from different ages. Indeed, I am constantly taking care of my relatives, my brother and cousins. Apart from this, my training as a secondary education teacher was focused on developing different skills and methodologies to teach students not only curricular contents but also aspects related to life; educate them. On the other hand, I think it is important to highlight my training as lifeguard and my experience working as it during the last two summers.*

Although I am Spanish, I think my level of English is not a low one. The reason of this is my training in foreign languages. Apart from studying English in the high school and at the university, I had the opportunity of experience an Erasmus grant in Portugal one year ago. The experience was absolutely amazing. I could also spend a whole month living in Malta with a government grant. As you would see, I love adventures and mostly learning from different cultures and lifestyles.

Among other information, I would add I have my driving license since I was 20 years old without fines or any problems.

I would be happy to have the opportunity to speak with you: to answer whatever questions you may have about me or my childcare experiences; to learn more about your family; your interests and to know more about what you expect from the au pair arrangement.

Thank you very much for your interest in my application!
I look forward to hearing from you.

3. ¿Por qué quieres trabajar de aupair ?

The main reason why I would like to be taken into account as an au pair is that it is an **incredible opportunity to improve my English** doing what I like most. It is a perfect way of **learning about other cultures and lifestyles as well as acquiring more experience working with children**. Moreover, the idea of meeting new people and being inserted in a different culture really fancy me.

Espero que te sirva ;)
